

ScrapCatcher™

PORTABLE
PROTECTION
for
Free Flowing
DRAINS

Mop Sink • Triple Sink • Prep Sink Pre-Rinse Sink • BAR Sink

- **PORTABLE** solids solution that fits in most sinks for *liftable* collection
- **CAPTURES** **fine solids** and starts blocking scrap & debris immediately
- **SAVES** time & money by **preventing** clogs & emergency drainline service
- **REDUCES** grease trap buildup AND helps improve **effluent** [water quality](#)

Keep your kitchen **flowing** with **ScrapCatcher™**

2-SIZES

MULTI | ScrapCatcher - versatile size for multiple applications including: **triple sinks, prep sinks, pre-rinse sinks, mop sinks & capturing solids from tilt kettles.** The fine mesh insert with 3/32 holes blocks rice and even smaller scrap solids. The high flow dome prevents solids from disrupting drainage. The larger 1/4" holes beneath fine mesh allow for fast flow & volume capacity. Made of high density polyethylene with sturdy handles & holes for easy emptying.

Dimensions:
20-1/2"L x 15-1/2"W x 5"H
Color: **Grey**
Item Code: **SC-200-G**

BAR | ScrapCatcher - perfect fit for standard **BAR sink** applications to collect scrap debris from beverage glasses. The high flow dome prevents any small particle solids & straws from entering the drain line. Equipped with side grab holes to allow for easy lift up for emptying to a bin. Made of polycarbonate, shatter & scratch proof, prevents build up and is easy to clean.

Dimensions:
12-3/4"L x 10-1/4"W x 6"H
Color: **Black**
Item Code: **SC-120-B**
