

DrainShot™

BIOLOGICAL DOSING TABLET

DrainShot Biological **TABLETS** make measured dosing simple to remediate **drains, grease traps & lift stations**. Biological treatment is a sustainable maintenance tool for fewer problems, cleaner wastewater & peace-of-mind.

THE DrainShot TABLET SIMPLIFIES DOSING TO DELIVER PREVENTIVE BIO-REMEDICATION.

The DrainShot Tablet releases a multi-strain probiotic formula to digest **ORGANICS** in drains and wastewater. The active microbes reduce odors while breaking down **fats, oils, grease** and **sugars**; rendering them unable to reform or clog drains. The treatment is natural, non-toxic, safe for plumbing and the environment.

- **REMEDiates** organic waste build up with high count microbial action
- **PREVENTS** emergency drain line issues from **FOG & Sugar Snakes**
- **REDUCES** odors and noxious gases with source organics remediation
- **EXTENDS** grease trap cleaning intervals from reduced grease loading
- **IMPROVES** FOG, TSS & BOD for cleaner **wastewater** effluent

DrainShot...*keeps drains flowing, **biologically.***

PRODUCT INFORMATION

BIOLOGICAL TABLETS

Formula Specifications

Guaranteed Minimum Bacterial Concentration

1 billion CFU/g | 4-billion/tablet

PRODUCT PROFILE

Applications

- Grease traps / Interceptors
- Kitchen drains (grease)
- Beverage lines (sugars)
- Lift Stations
- Collection Systems
- Septic Systems

Multiple *Bacillus* Species

- Naturally occurring, non-engineered
- Aerobes and facultative anaerobes
- Highly motile
- Positive chemotaxis
- 100% stabilized bacterial spores

Appearance

Dry Beige Tablet, 4g

Effective pH Range

4.25 – 10.0

Effective Temperature Range

5°C – 55°C (40°F – 130°F)

Shelf Life

One year at 21°C (70°F)

STANDARD PACKAGING

(60) 4g tablets / jar

(12) jars / case

STORAGE AND HANDLING

Store in a cool, dry location.

Do not freeze

Wash thoroughly with water if exposed to skin or eyes
